(Additional Repeats \$50/Diaper)	

\*Retention and Rewet Tests are accomplished using the Spreading and Wicking or Baby Mannequin Test devices to dose the diaper with synthetic urine. The data obtained includes values for both Retention and Baby Mannequin or Spreading and Wicking.

\*\*This test is done in conjunction with Spreading and Wicking.

\*\*\*There will be an additional charge if a sample of the type of superabsorbent in the diapers being evaluated can not be provided. In this case the superabsorbent must be manually removed from the diapers.
